Description

Gastronorm Trolleys

Gastronorm Trolleys are used for transporting gastronorm containers and are made of high-quality stainless steel. The construction is **welded or collapsible** and has high **strength and load capacity**.

The trolleys are supplied with 100 mm or 125 mm diameter **wheels**, with or without brakes, and are easily replaceable thanks to the single-screw attachment. Customers can

- The trolleys are suitable for GN 2/1 – 1/1 – 1/2 – 1/3 – 2/3 – 2/4.
- We also produce atypical dimensions according to customer requirements.

choose between a version **without a barrier or with a barrier** to prevent gastronorm containers from falling out during transport. There are various options for the **number of insertion points**. We produce „H“ and „Z“ type **trolleys** (advantage: stacking empty trolleys).

Trolley

DO-CO

Dimensions: Height 1,610 mm, Width 585 mm, Depth 660 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 18 (selectable number of insertions)

Purpose: Gastronorm containers (GN 2/1 and 1/1)

Variant: Welded version

Thanks to the „Z“ design, it can be nested to save space

Trolley

VGD0801

Dimensions: Height 900 mm, Width 388 mm, Depth 543 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

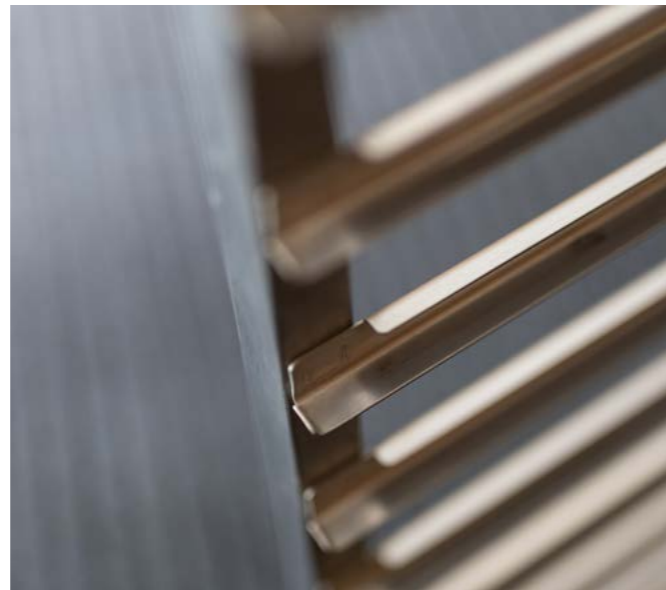

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 8 (choice of number of insertions)

Purpose: Gastronorm containers (GN 1/2 and 1/1)

Variant: Welded version

Trolley

VGD0802

Dimensions: Height 900 mm, Width 748 mm, Depth 543 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 16 (selectable number of insertions)

Purpose: Gastronorm containers (GN 1/2 and 1/1)

Variant: Welded version

Trolley

VGS1501

Dimensions: Height 1,375 mm, Width 385 mm, Depth 540 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

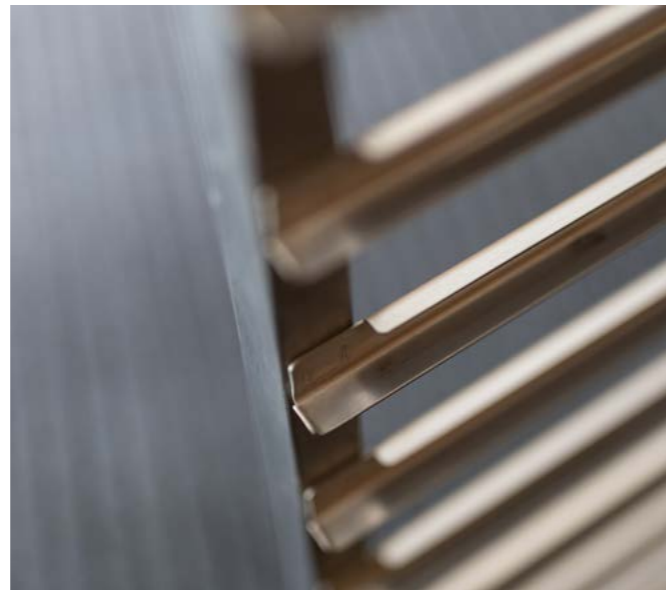

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 15 (selectable number of insertions)

Purpose: Gastronorm containers (GN 1/2 and 1/1)

Variant: Export version

Trolley

VGS1701

Dimensions: Height 1,575 mm, Width 385 mm, Depth 540 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

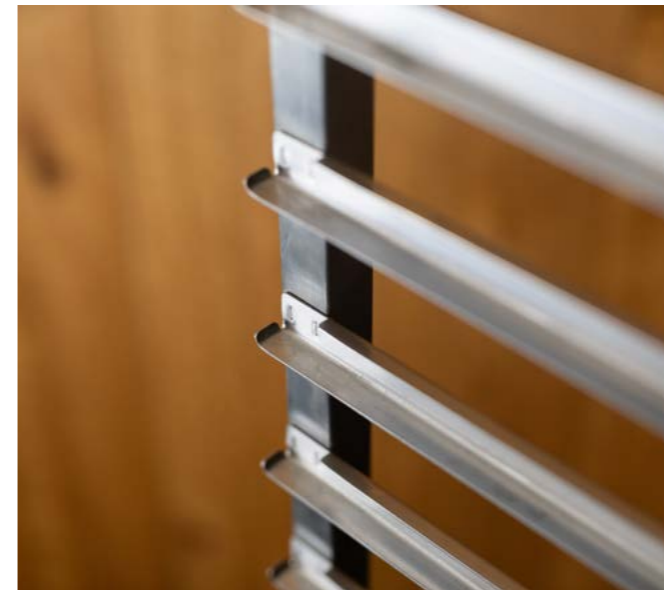

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 17 (selectable number of insertions)

Purpose: Gastronorm containers (GN 1/2 and 1/1)

Variant: Export version

Trolley

VGS1702

Dimensions: Height 1,575 mm, Width 745 mm, Depth 540 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

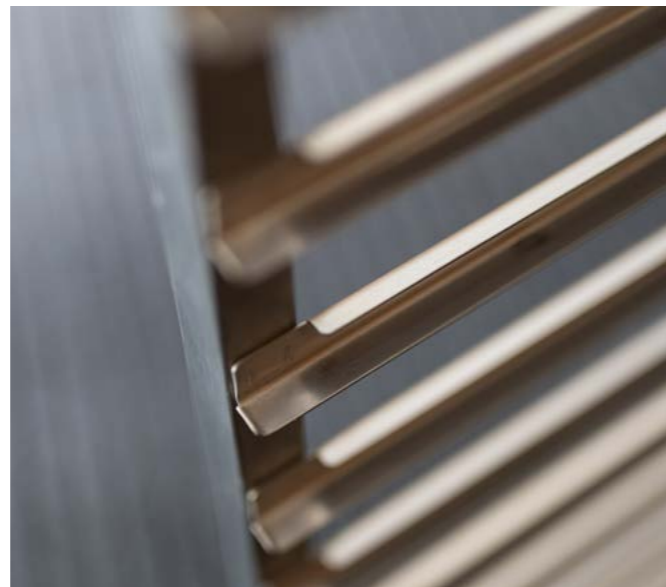

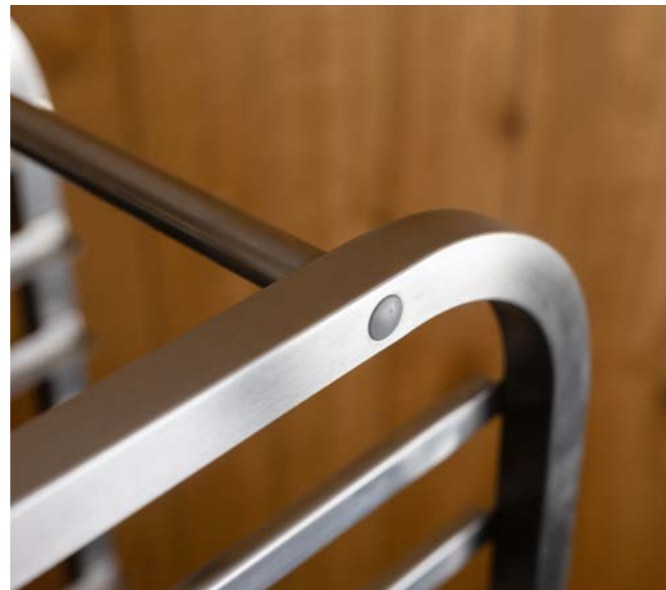

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 34 (selectable number of insertions)

Purpose: Gastronorm containers (GN 1/2 and 1/1)

Variant: Export version

Trolley

VGZ1801

Dimensions: Height 1,635 mm, Width 385 mm, Depth 540 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 18 (selectable number of insertions)

Purpose: Gastronorm containers (GN 1/2 and 1/1)

Variant: Welded version

Thanks to the „Z“ design,
it can be nested to save
space

Trolley

VGZ1802

Dimensions: Height 1,635 mm, Width 585 mm, Depth 658 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

Brakes: 2x brake, 2x without brake, fully lockable

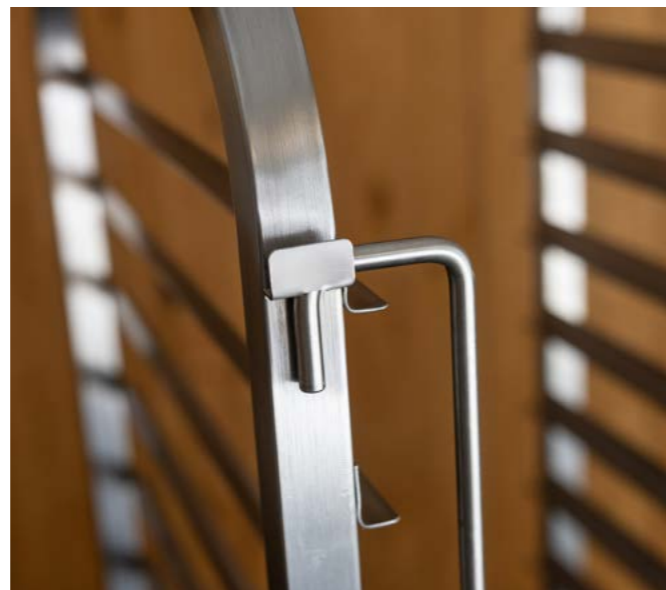

Load capacity: Max 10 kg per each insert

Number of tiers: 18 (selectable number of insertions)

Purpose: Gastronorm containers (GN 2/1 and 1/1)

Variant: Welded version

Thanks to the „Z“ design,
it can be nested to save
space

Trolley

VGH1801

Dimensions: Height 1,635 mm, Width 385 mm, Depth 540 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 18 (selectable number of insertions)

Purpose: Gastronorm containers (GN 1/2 and 1/1)

Variant: Welded version

Description

Bin Trolleys

This type of trolley is used for transporting and storing used dishes in washing baskets. The trolleys are made from high-quality stainless steel. The construction is welded or collapsible and offers high strength and load capacity.

The trolleys are fitted with 100 mm or 125 mm diameter wheels, with or

without brakes, and can be easily replaced thanks to the single-screw attachment.

Customers can choose a version without a barrier or with a barrier to prevent baskets from falling during transport. There are also different options for the number of basket insertions.

- We manufacture „H“ and „Z“ type trolleys (advantage: stacking empty trolleys).
- The trolleys are suitable for baskets measuring 500 mm x 500 mm.

Trolley

VKH0601

Dimensions: Height 1,610 mm, Width 570 mm, Depth 500 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 6 (selectable number of insertions)

Purpose: 500x500 dishwasher baskets

Variant: Welded version

Trolley

VKH0801

Dimensions: Height 1,610 mm, Width 570 mm, Depth 500 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 8 (selectable number of insertions)

Purpose: 500x500 dishwasher baskets

Variant: Welded version

Trolley

VKH1001

Dimensions: Height 1,810 mm, Width 570 mm, Depth 500 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 8 (selectable number of insertions)

Purpose: 500x500 dishwasher baskets

Variant: Welded version

Description

Bakery Trolleys

Our bakery trolleys are made of high-quality stainless steel in **welded or collapsible designs**. We use durable stainless steel and long-lasting wheels. We offer a variety of configurations for the **number of tiers and designs for different types of ovens**.

The wheels on the oven trolleys are made of **heat-resistant materials**

- We manufacture oven trolleys, sheet racks, and storage trolleys for a variety of sheet sizes.
- Custom sizes are available upon request.

(up to +280°C) and are easily replaceable thanks to the single-screw attachment. Oven trolleys come with wheels of 100 mm in diameter. Storage trolleys are available with wheels of 100 mm or 125 mm in diameter.

We manufacture both „H“ and „Z“ **type trolleys** (advantage: stacking empty trolleys).

Trolley

VPD1602

Dimensions: Height 1,815 mm, Width 520 mm, Depth 605 mm

Material: Stainless steel

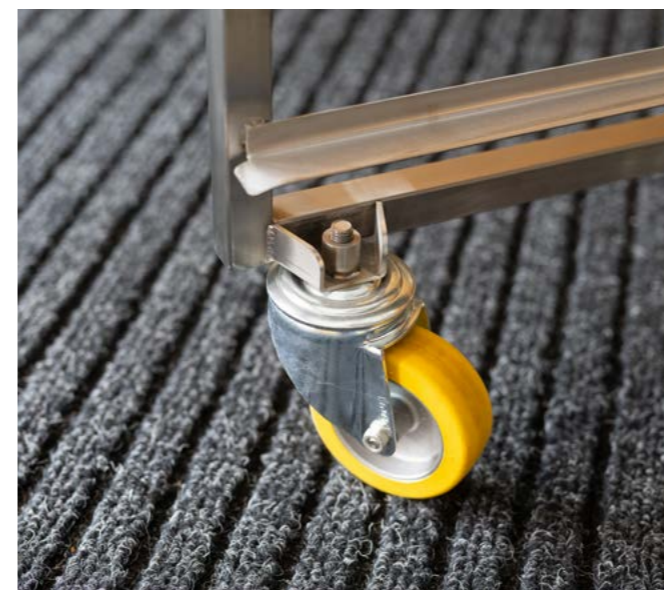

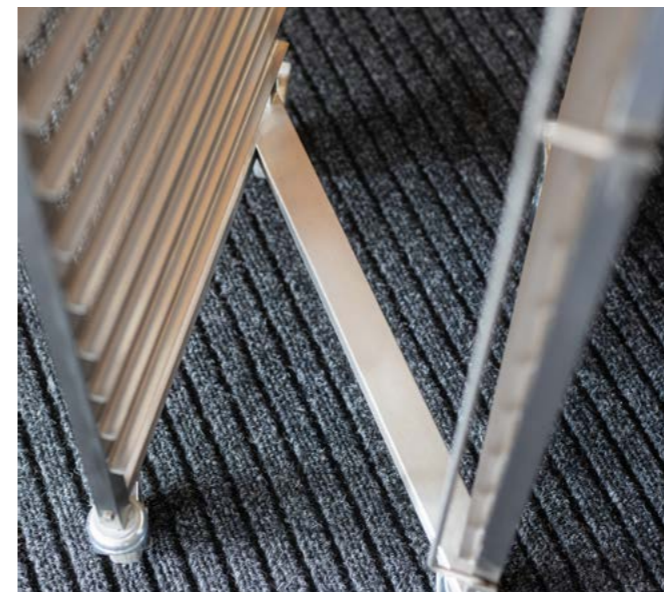

Wheels: Baker's wheels, diameter 100 mm, 4x without brake

Load capacity: Max 10 kg per each insert

Number of tiers: 16 (selectable number of insertions)

Purpose: For sheets 600x460 (also for 600x400, 780x580, 800x600, 980x580)

Variant: Welded version

Trolley

MRE800660 H18 For Miwe ovens

Dimensions: Height 1,800 mm, Width 660 mm, Depth 800 mm

Material: Stainless steel

Wheels: Baker's wheels, diameter 100 mm, 4x without brake

Load capacity: Max 10 kg per each insert

Number of tiers: 18 (selectable number of insertions)

Purpose: For sheets 800x600 (also for 600x400, 600x460, 780x580, 980x580)

Variant: Export version

Trolley

MRW800660 H18 For Miwe ovens

Dimensions: Height 1,800 mm, Width 660 mm, Depth 800 mm

Material: Stainless steel

Wheels: Baker's wheels, diameter 100 mm, 4x without brake

Load capacity: Max 10 kg per each insert

Number of tiers: 18 (selectable number of insertions)

Purpose: For sheets 800x600 (also for 600x400, 600x460, 780x580, 980x580)

Variant: Welded version

Trolley

REW800660 H18 For Revent ovens

Dimensions: Height 1,830 mm, Width 660 mm, Depth 800 mm

Material: Stainless steel

Wheels: Baker's wheels, diameter 100 mm, 4x without brake

Load capacity: Max 10 kg per each insert

Number of tiers: 18 (selectable number of insertions)

Purpose: For sheets 800x600 (also for 600x400, 600x460, 780x580, 980x580)

Variant: Welded version

Trolley

REE800660 H20 For Revent ovens

Dimensions: Height 1,830 mm, Width 660 mm, Depth 800 mm

Material: Stainless steel

Wheels: Baker's wheels, diameter 100 mm, 4x without brake

Load capacity: Max 10 kg per each insert

Number of tiers: 20 (selectable number of insertions)

Purpose: For sheets 800x600 (also for 600x400, 600x460, 780x580, 980x580)

Variant: Export version

Trolley

PEK 21v

 For Debag ovens

Dimensions: Height 1,752 mm, Width 658 mm, Depth 840 mm

Material: Stainless steel

Wheels: Baker's wheels, diameter 100 mm, 4x without brake

Load capacity: Max 15 kg per each insert

Number of tiers: 21 (selectable number of insertions)

Purpose: For sheets 800x600 (also for 600x400, 600x460, 780x580, 980x580)

Variant: Welded version

Description

Transport Trolleys

Transport trolleys are used for carrying baking trays and are made from high-quality stainless steel. The structure is either **welded or collapsible** and offers high **strength and load capacity**.

The trolleys come with 100 mm or 125 mm diameter **wheels**, with or without brakes, and can be easily replaced thanks to the single-screw attachment.

Customers can choose between versions **with or without a barrier** to prevent gastronorm containers from falling during transport. There are various options for the **number of insertion points**. We manufacture both **„H“ and „Z“ type trolleys** (advantage: stacking empty trolleys).

- We produce transport trolleys for a variety of tray sizes.
- Custom sizes are available upon request.

Trolley

TRW600460 Z20

Dimensions: Height 1,800 mm, Width 460 mm, Depth 660 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 20 (selectable number of insertions)

Purpose: For trays 600x400 (also for 600x460, 780x580, 800x600, 980x580)

Variant: Welded version

Thanks to the „Z“ design,
it can be nested to save
space

Trolley

TRW600460 H20

Dimensions: Height 1,800 mm, Width 460 mm, Depth 600 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 20 (selectable number of insertions)

Purpose: For trays 600x400 (also for 600x460, 780x580, 800x600, 980x580)

Variant: Welded version

Trolley

TRE600460 H20

Dimensions: Height 1,800 mm, Width 460 mm, Depth 600 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 20 (selectable number of insertions)

Purpose: For trays 600x400 (also for 600x460, 780x580, 800x600, 980x580)

Variant: Export version

Trolley

ROW1270400 H10

Dimensions: Height 1,800 mm, Width 1,270 mm, Depth 400 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

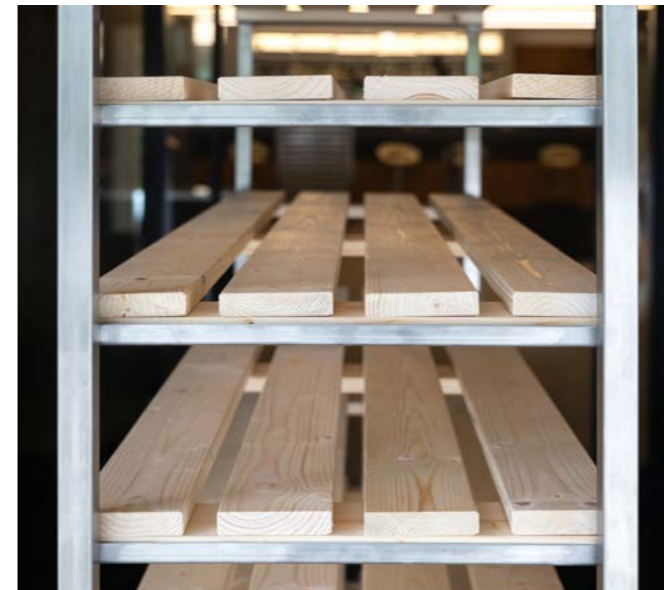

Brakes: 2x brake, 2x without brake, fully lockable

Load capacity: Max 15 kg per each insert

Number of tiers: 10 (selectable number of insertions, wooden or stainless steel grid)

Purpose: Cooling of baked goods

Variant: Welded version

Trolley

VPD3502

Thanks to the „Z“ design,
it can be nested to save
space

Dimensions: Height 1,900 mm, Width 520 mm, Depth 605 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

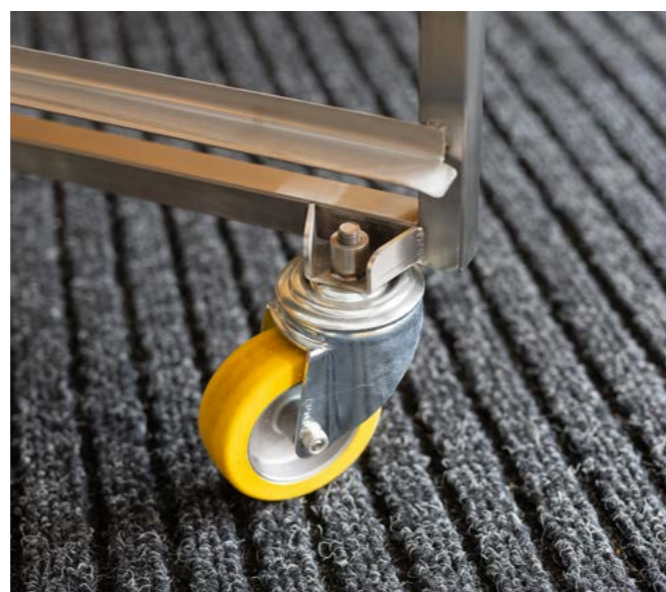

Brakes: 2x brakes, 2x without brakes, fully lockable

Load capacity: Max 10 kg per each insert

Number of tiers: 35 (selectable number of insertions)

Purpose: For trays 600x460 (also for 600x400, 780x580, 800x600, 980x580)

Variant: Welded version

Description

Self Trolleys and Clearing Trolleys

We manufacture professional serving, shelf, and clearing trolleys from **high-quality stainless steel**. Thanks to the welded design, these trolleys are **robust and have a high load capacity**. Each trolley undergoes a final inspection to guarantee quality.

Customers can choose between models with **two or three shelves**. Our range includes cleaning trolleys **with or without handles**.

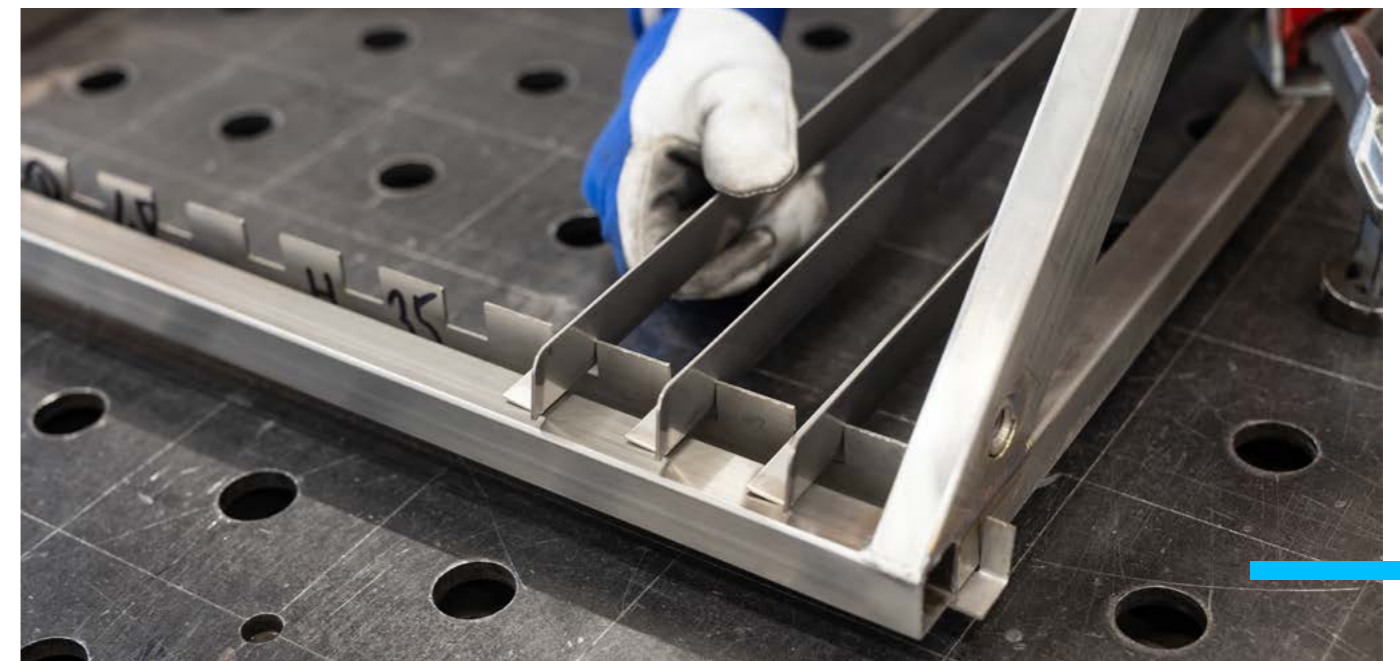

The cleaning and shelf trolleys are equipped with 125 mm diameter wheels, with or without brakes, which are easily replaceable thanks to the single-screw attachment. The wheels

- Distance between shelves: 245 - 495 mm
- Maximum shelf load capacity: 80 kg
- Maximum total load capacity: 220 kg

can rotate 360° and are resistant to mechanical damage. A variety of trolley sizes is available.

Thanks to their durability and precision craftsmanship, our stainless steel trolleys stand out for their long service life and are ideal for **everyday use** in hotels, accommodation facilities, and other professional environments.

Serving trolleys are designed for everyday use in canteens, professional kitchens, restaurants, and other catering establishments.

Trolley

VSK0001 Clearing Trolley

Dimensions: Height 920 mm, Width 1,300 mm, Depth 530 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

Brakes: 2x brake, 2x without brake, fully lockable

Number of shelves: 2

Purpose: Gastronorm containers (GN 1/2, 1/1)

Variant: Welded version + cladding

Trolley

VSE0201 / VSE0301 Serving Trolley without handles

Dimensions: Height 850 mm, Width 1,055 mm, Depth 530 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

Brakes: 2x brake, 2x without brake, fully lockable

Number of shelves: 2

Variant: Welded version

Trolley

VSE0203 / VSE0303 Serving Trolley with handle

Dimensions: Height 950 mm, Width 1,055 mm, Depth 530 mm

Material: Stainless steel

Wheels: Transport wheels, diameter 125 mm or 100 mm

Brakes: 2x brake, 2x without brake, fully lockable

Number of shelves: 2

Variant: Welded version, 2x storage compartments (shelves)

Description

Trolleys for Stationary Ovens

Our bakery trolleys are made from high-quality stainless steel in **welded or collapsible designs**. We use durable stainless steel and long-lasting wheels. We offer a variety of configurations for the **number of tiers and trolley designs for different types of ovens**.

Oven trolley wheels are made from **temperature-resistant materials**

(up to +280°C) and are easily replaceable thanks to the single-screw attachment. The oven trolleys are fitted with 100 mm diameter wheels. Storage trolleys are supplied with wheels of either 100 mm or 125 mm in diameter.

We manufacture both „H“ and „Z“ **type trolleys** (advantage: stacking empty trolleys).

- We manufacture oven trolleys, sheet racks, and storage trolleys for various sheet sizes.
- Custom sizes are available upon request.

Description

PEW800660 H20

Description

Tables and Racks on Request

We offer welded stainless steel work tables for a wide range of applications, particularly in professional kitchens and catering environments. Their main advantages are their high durability and strength.

Stainless steel work tables have height-adjustable legs and a raised rear edge for placement against a

wall. The tables can be fitted with swivel wheels. The tabletop can be made of stainless steel or wood.

Thanks to their durability and precision craftsmanship, stainless steel tables are long-lasting and ideal for everyday use in hotels, accommodation facilities, and other professional settings.

Types of Stainless Steel Tables:

- Stainless steel tables with a crossbar
- Stainless steel tables with a shelf/shelves
- Stainless steel tables with a grate
- Stainless steel tables with a sink/double sink

Table Dimensions:

- Depth: 600 – 1,300 mm
- Width: 500 – 2,800 mm
- Height: 800 – 900 mm

Description

Pedestals for Convection Ovens

The pedestals for convection ovens feature a solid welded construction, complemented by a customizable number of insertions for gastronorm

containers of various sizes. The exact version of the pedestal depends on the type of convection oven being used.
